FAMILY PHYSIC.

There is along existed a public demand for an effective purpose designed, it is easy to make a physical Pitt, but not easy to make in heat of make a prepared to seet that demand, and an extensive trial of its virtues has conclusively anown with what success it accomplishes the purpose designed. It is easy to make a physical Pitt, but not easy to make the best of all Pitts—one which should have mone of the o'jections, but all the advantages, of every other. This has been attempted bere, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hither to that almost every purgative medic no is acrimonious and irritation to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These ritus produce no irritation or pain unless it arise from a praviously existing obstruction or derangement in the bowers. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that may medicine should be aken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them we may mention, Liver Complaint, in its various forms of Jaundice, Indigestion, Languar and Lors of Appellie, Listlessnoss, Irritability, Billous Headache, Bilous Fever, Pever and Agne, Pain in the Side and Loins: for, in truth, all these are but the consequence of diseased action in the liver. As an aportent, they afford prompt and sure relief in Costiveness, Piles, Colic, Bysentery, Humors, Serodula and Scurry, Colds, with soreness of the bedy, Ulcers, and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singulariv successful cures in Rheumanism, Gout, Dropsy, Gravel. Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach and Side.—They shoul FAMILY PHYSIC.
